Cory Awards Landmark Vehicle Hire Contract to SFS

Cory Environmental Municipal Services has selected SFS to provide over 200 vehicles for its Cornwall collection service - one of the largest municipal vehicle hire contracts in the UK. In a contract worth £14 million, we will be supplying a range of vehicles including refuse collection vehicles, skip loaders and specialist recycling vehicles to support the standardised fortnightly collection of dry recyclables.

Nigel Carr, General Manager for Cory Environmental Municipal Services Ltd: "Cory has been operating in Cornwall, near Truro, since 1990 and we are delighted to have been selected by Cornwall Council for this significant contract. We have found SFS to be a very professional organisation that shares the same ethos, and they are a valuable partner in helping us deliver the highest standards of service in Cornwall. The contract offers value for money as well as a responsive and flexible service."

Bedford Borough Council Finds The Right Balance

We have just delivered four new refuse collection vehicles to Bedford Borough Council to work alongside the authority's existing in-house fleet.

We've been working with Bedford since 1998 and we are introducing operational efficiency improvements, such as out of hours maintenance, to reduce VOR time, increase vehicle availability and mitigate service disruptions.

Tim Cockayne, Fleet Engineering Services Manager, Bedford Borough Council commented:

"We structure the elements of our vehicle provision and maintenance to meet the needs of our service. Across the authority we have some 300 vehicles in operation. We strike a balance between the optimum utilisation of our in-house resources, with the specialist skills and knowledge of companies like SFS, to deliver the best value for money."

Added Cllr Charles Royden, Portfolio Holder for Environment & Transport and Deputy Mayor of Bedford said: "We are continually looking for new and better ways of working. SFS are valuable partners, helping us to streamline our service and provide the best value for money for our residents."
