Hambleton & Richmondshire Join For Total Fleet Management

For the first time Hambleton and Richmondshire District Councils are jointly procuring their waste and recycling vehicles and we have been awarded the contract to provide their new fleet.

"This is the first time that we have jointly procured vehicles and there have been lots of positives from combining the expertise from both authorities," said Director of Hambleton District Council, Mick Jewitt, who manages the waste and recycling service for both councils.

"The two councils now work much more closely together which gives us greater flexibility in terms of fleet optimisation. Specialist Fleet Services has gone to great lengths to offer vehicle specification options to suit the different geography of the districts – including the need for narrow vehicles to navigate the rural roads of Richmondshire."

The 3+1+1 year contract comprises 15 RCV's and the SFS package includes fleet management, maintenance, on-site engineers, and a single contact point for any problems. This isn't the first time that we've worked with the authorities and, since 2004, we have supplied some 40 vehicles across both Districts.

Find Us At RWM 2012 – Stand 20C19

We're really looking forward to meeting up with visitors to the RWM show next week. Last year's event was an excellent expo for the waste and recycling sector and we're hoping that this year will be just as successful.

We hope to see you on our stand. Here's how to find us:

Specialist Fleet Services

3 Queensbridge, Northampton NN4 7BF
