High Peak & Staffordshire Moorlands Come Together For Fleet Procurement

We are very pleased to announce that we have been awarded the first joint fleet procurement tender from High Peak Borough Council and Staffordshire Moorlands District Council. The incumbent supplier for Staffordshire Moorlands for over 14 years, we managed to beat off a large number of bids to win this popular tender.

One of the vehicles being replaced as part of the new contract

Joy Redfern, Street Scene Manager (Shared Service) said: "This is the first time that we have procured fleet across both authorities and it was a very smooth process. There were some high quality bids received yet SFS scored very highly beating off other tenders particularly in terms of quality standards and financial costs."

The 7-year contract commencing 1 April 2013 comprises the provision and maintenance of 62 vehicles for grounds maintenance, street scene, waste collection and environmental health services.

Some of the new vehicles will be shared between the authorities, such as those for Street Scene, and others will be used in one district but available for cover as and when required by the neighbouring authority.

Our engineers will be maintaining the vehicles at the Staffordshire Moorlands depot.

First Choice For Hyndburn & First Euro 6 Order

More good news as Hyndburn Borough Council retains us as its vehicle provider signing a three-year contract to renew its refuse collection fleet.

Steve Riley, Head of Street Scene, Hyndburn Borough Council said: "Once again SFS provided the best combination of price and quality in response to our tender. We have found SFS to be a very professional organisation and deliver an excellent standard of service and support. I am happy to continue our partnership for a further 3 years"

We are providing 6 x Dennis Eagle Olympus narrow chassis with Terberg OmniDEL Xtra bin lifts in stages starting September 2013, with delivery of the final truck in April 2015 marking our first order with a Euro 6 certified engine.
